MANAGUA, D. N., NICARAGUA

January 17, 1964

Mr. Carl Dabelstein
12524 "C" Street
Omaha 44, Nebraska

Dear DXer:

Thank you for your reception report of December 30, 1963. We are always happy to hear from our DX listeners. We are a local station with 15,000 watts longwave. This letter is to verfify your report.

YNOL operates on 828 KC using three 3X 2500 F3 tubes in the final. We have one of the most powerful transmitters in all Central America and it was constructed righthere at the station. Our antena is a 305' vertical radiator tower. We began our minisrty on March 8, 1959.

The studio-transmitter building is located about 7 miles SW of Managua. We also maintain a recording studio downtown along with our office.

Presently we are broadcasting 16 hours a day with the final hour in the English language from 9:00 - 10:00 PM daily. There are many Englishspeaking people in Nicaragua.

Thank you again foryour reception report.

Sincerely yours,

Daniel Merrick

Dan Merrick,
